MEMORANDUM FOR UNDERSTANDING

SUBJECT: Rotational Assignment of [REDACTED]

STAT

1. The memorandum sets forth the understanding between the Office of Imagery Analysis and the Office of Geographic and Cartographic Research regarding the rotational assignment of [REDACTED] (GS-12).
(U)

STAT

2. [REDACTED] will start a one-year tour in the Visual Information and Design Branch, Cartographic Division on 7 November 1979. [REDACTED] has shown a personal interest in increasing communications among and enhancing the career development of people in the graphics field. (See Attachment) Both offices view this assignment as an excellent opportunity to test some important aspects of [REDACTED] proposal. We expect that during his tour, while [REDACTED] is contributing to the OGCR production effort, he will be able to update his knowledge of new techniques, procedures, and equipment in the graphics field as well as exchange ideas with his peers. We further expect that on his return [REDACTED] will be able to apply the experience gained during his exposure to the larger and more varied operations at OGCR to ensure that OIA graphics are equal to the best that NFAC produces. (S)
